Rural Development In Sub Saharan

Abstract This paper assesses the relation between access to markets and cultivated land in Sub-Saharan Africa. Making use of a geo-referenced panel over three decades (1970-2005) during which the road network was significantly improved, the analysis finds a modest but significant positive association between increased market accessibility and local cropland
expansion.

Sub-Saharan Africa - World Bank

According to the Food and Agriculture Organization of the United Nations (FAO), over 60% of people in Sub-Saharan Africa depend on the agricultural sector for their livelihoods. The FAO also reports that approximately three-quarters of those living below the poverty line live in rural, primarily agricultural, areas.
